CONTENTS OF VOLUME 113

Vol. 113A, No. 1

A. P. Farrell and P. W. Hochachka 1 Metabolism and physiology of high performance fish

Reviews

R. W. Brill 3 Selective advantages conferred by the high performance physiology of tunas, billfishes, and dolphin fish

K. E. Korsmeyer, H. Dewar, N. C. Lai and J. B. Graham 17 The aerobic capacity of tunas: adaptation for multiple metabolic demands

O. Mathieu-Costello, R. W. Brill and P. W. Hochachka 25 Structural basis for oxygen delivery: muscle capillaries and manifolds in tuna red muscle

J.-M. Weber and F. Haman 33 Pathways for metabolic fuels and oxygen in high performance fish

K. A. Dickson 39 Locomotor muscle of high-performance fishes: what do comparisons of tunas with ectothermic sister taxa reveal?

C. L. Milligan 51 Metabolic recovery from exhaustive exercise in rainbow trout

A. P. Farrell 61 Features heightening cardiovascular performance in fishes, with special reference to tunas

C. D. Moyes 69 Cardiac metabolism in high performance fish

G. F. Tibbits 77 Towards a molecular explanation of the high performance of the tuna heart

C. J. Brauner and D. J. Randall 83 The interaction between oxygen and carbon dioxide movements in fishes

I Comparative Biochemistry and Physiology A Bibliography

V Instructions to Authors

Vol. 113A, No. 2

M. T. Sørensen, N. Oksbjerg, N. Agergaard and J. S. Petersen 91 Tissue deposition rates in relation to muscle fibre and fat cell characteristics in lean female pigs (*Sus scrofa*) following treatment with porcine growth hormone (pGH)

J. Prothero 97 Scaling of organ subunits in adult mammals and birds: a model

T. Takeda 107 Effects of experimental ventilation and ambient Po_2 on O_2 uptake of the isolated cutaneous tissue in the carp, *Cyprinus carpio*

M. Albentosa, U. Labarta, M. J. Fernández-Reiriz and A. Pérez-Camacho 113 Fatty acid composition of *Ruditapes decussatus* spat fed on different microalgae diets

S. F. Perry, C. M. Wood, P. J. Walsh and S. Thomas 121 Fish red blood cell carbon dioxide transport *in vitro*: a comparative study

S. M. Sowa and L. L. Keeley 131 Free amino acids in the hemolymph of the cockroach, *Blaberus discoidalis*

D. C. Ball and J. W. Hicks 135 Adrenergic and cholinergic response of ventricular muscle from the turtle, *Trachemys (Pseudemys) scripta*

L. A. Romano, C. A. Loretz and C. R. Fourtner 143 Potassium channels in pituitary cells in the teleost, *Gillichthys mirabilis*

M. Montagnani, R. Aldini, A. Roda, M. L. Caruso, A. M. Gioacchini, P. L. Lenzi and E. Roda 157 Species differences in hepatic bile acid uptake: comparative evaluation of taurocholate and tauroursodeoxycholate extraction in rat and rabbit

M. Yasuda, T. Uesaka, Y. Furukawa and M. Ando 165 Regulation of atrial contraction in the seawater-adapted eel, *Anguilla japonica*

M. C. Minick, G. E. Duke, S. W. Fishman and R. B. Harvey 173 Effects of intragastric nutrients upon simultaneously determined plasma insulin, glucagon, insulin/glucagon ratios and glucose in red-tailed hawks, *Buteo jamaicensis* gmelin

S. J. Freedman 181 Immune rainbow trout serum has an anti-proliferation effect on isolated mouse T-cells: possible autoimmune downregulatory implications

P. F. A. Barra 185 Ionic currents during the action potential in the molluscan neurone with the self-clamp technique

C. A. Gibson and C. R. Baumrucker 195 A mammary epithelial cell line is transiently stimulated towards milk lipid synthesis by lactogenic treatments

I. Plaut, A. Borut and M. E. Spira 205 Lifetime energy budget in the sea hare *Aplysia oculifera*

I Comparative Biochemistry and Physiology A Bibliography

V Instructions to Authors

Vol. 113*A*, *No.* 3

Symposium

F. Bairlein 213 Food choice and nutrition in plant-feeding birds

F. Bairlein 215 Fruit-eating in birds and its nutritional consequences

D. J. Levey and M. L. Cipollini 225 Is most glucose absorbed passively in northern bobwhite?

W. H. Karasov, D. Afik, and B. W. Darken 233 Do northern bobwhite quail modulate intestinal nutrient absorption in response to dietary change? A test of an adaptational hypothesis

M. Díaz 239 Food choice by seed-eating birds in relation to seed chemistry

Original Articles

G. J. Coman, H. Z. Sarac, D. Fielder and M. Thorne 247 Evaluation of crystalline amino acids, betaine and AMP as food attractants of the giant tiger prawn (*Penaeus monodon*)

I. Yeh, S. Tsai, E. Catuira, T. T. Le, V. Papa, L. Pena, M. Vasquez, C. Vu, S. Wang, G. A. Lopez and C. F. Tam 255 Plasma triglyceride levels correlate with body weight, age and gender influence body weight changes in *Spermophilus lateralis* during prehibernation and hibernation

T. E. Tomasi and D. A. Mitchell 267 Temperature and photoperiod effects on thyroid function and metabolism in cotton rats (*Sigmodon hispidus*)

L. Furlan and A. Catala 275 Lipid composition across the villus and crypts zones of bovine intestinal mucosa

P. Degrace, C. Caselli, A. Bernard and H. Carlier 279 Mesenteric lymph absorption of eicosapentaenoic acid in rats

T. Ono, T. Murakami, Y. Tanabe, M. Mizutani, M. Mochii and G. Eguchi 287 Culture of naked quail (*Coturnix coturnix japonica*) ova *in vitro* for avian transgenesis: culture from the single-cell stage to hatching with pH-adjusted chicken thick albumen

D. N. Penick, F. V. Paladino, A. C. Steyermark and J. R. Spotila 293 Thermal dependence of tissue metabolism in the green turtle, *Chelonia mydas*

H. Yamashiro and T. Samata 297 New type of organic matrix in corals formed at the decalcified site: structure and composition

H. Aono and K. Mori 301 Interaction between hemocytes and plasma is necessary for hemolymph coagulation in the spiny lobster, *Panulirus japonicus*

M. Peral de Bruno, L. Romano and A. Coviello 307 Interaction between antagonists of angiotensin II and antidiuretic hormone in isolated toad tissues

I Comparative Biochemistry and Physiology A Bibliography

XIII Instructions to Authors

Vol. 113*A*, *No.* 4

K. Maruyama, N. Kanemaki and J. A. Proudman 315 Effects of growth hormone injection to embryos on growth and myosin heavy chain isoforms in growing turkeys (*Meleagris gallopavo*)

K. Olsson, M. Josäter-Hermelin, J. Hossaini-Hilali, K. Cvek, E. Hydbring and K. Dahlborn 323 Reproductive period affects water intake in heat-stressed dehydrated goats

J. B. Williams and E. J. Braun 333 Renal compensation for cecal loss in Gambel's quail (*Callipepla gambelii*)

M. J. Packard, D. H. Jennings and J. Hanken	343	Growth and uptake of mineral by embryos of the direct-developing frog *Eleutherodactylus coqui*
A. L. M. Britto, L. Josefsson, E. Scemes, M. A. Visconti and A. M. de L. Castrucci	351	Ionic requirements for PCH-induced pigment aggregation in the freshwater shrimp, *Macrobrachium potiuna,* erythrophores
F. S. Corotto and C. W. Holliday	361	Branchial Na, K-ATPase and osmoregulation in the purple shore crab, *Hemigrapsus nudus* (Dana)
G. J. Tattersall and P. A. Wright	369	The effects of ambient pH on nitrogen excretion in early life stages of the American toad (*Bufo americanus*)
M. B. Knoph and K. Thorud	375	Toxicity of ammonia to Atlantic salmon (*Salmo salar* L.) in seawater—effects on plasma osmolality, ion, ammonia, urea and glucose levels and hematologic parameters
J. Szkudlinski	383	The influence of the invasion of *Trichinella* sp. on immunologic reactions in mice: 1. Analysis of the reaction of skin allograft rejection
S. Minamikawa and M. Morisawa	387	Acquisition, initiation and maintenance of sperm motility in the shark, *Triakis scyllia*
I. Choi and K. Park	393	Variations in take-off velocity of anuran amphibians: relation to morphology, muscle contractile function and enzyme activity
B. J. Hamminga, Th. Wensing and D. Zwart	401	Changes in liver and fat depots of West African dwarf goats (*Capra Aegagus hircus*) after an infection with *T. vivax*
